As a self-employed person,

you will receive WIS once a year for work done in the preceding year.

What must I do?

For work done in a year, we will pay your WIS in the next year after you:

- ✔ declare your income to:
 - IRAS if you have been issued an income tax return package; or
 - CPF Board at any Singapore Post branch if you have not been issued the income tax return package; and
- ✔ make the required MediSave contributions.

The earlier you declare your income and make MediSave contributions, the earlier you will receive your WIS payout.

Declare your income and make your MediSave contributions by last Friday of March to receive WIS by 30 April*.

If you worked as both an employee and a self-employed person,

you will first be assessed for your work done as an employee and you will receive monthly WIS if you meet the criteria.

After the work year, we will assess your eligibility for additional WIS, based on your total income for the year (both employee and self-employed income).
